

Twelve Electrical Products Online Modules Available

- Low Voltage Motor Control
- Contactors
- Operator Devices
- Motor Control Centers *
- Medium Voltage Control *
- Molded Case Breakers
- Low Voltage Power Breakers *
- Insulated Case Breakers *
- Medium Voltage Switchgear *
- Transformers *
- Protective Relays
- Variable Frequency Drives *

* NETA CTD Qualified

*Designed to
prepare Techs
for the Level II
Exam*

Level II Practice Analysis Topics Covered

- Section 2.2d Insulation Type, Voltage, and Interrupting Ratings
- Section 2.2e Circuit Breaker Racking and Charging
- Section 2.3e Insulation Systems
- Section 2.3f Current Carrying Components
- Section 2.3g Arc Chutes
- Section 2.3h Operating Mechanisms
- Section 2.3i Auxiliary Devices
- Section 2.3j Interlocks
- Section 2.4c Low Voltage Distribution Equipment
 - Section 2.4c.1.i – Understands LV disconnect types and features *
 - Section 2.4c.3 – Panelboards – Switchboards *
 - Section 2.4c.8 – Bus Duct and Bus Plugs *
 - Section 2.4f.2.ii – Medium Voltage Fuses *
- Section 2.5d Low Voltage Trip Devices
- Section 2.5f Auxiliary Devices

* Coming Soon

Other Specific Training Topics available on a Contract Basis

- Other Practice analysis subjects can be converted from existing content
- Component Evaluation Module available from PEARL
- Sample Molded Case Breaker Training Available at no charge.
